

Bryan Thompson

Here's what I do...

I build websites that are affordable and effective that works for you and are easy to navigate and maintain, Search Engine friendly and pleasing to the eye.

I bring to the table 30+ years of computer experience as a professional consultant, software engineer and small business owner with a penchant for good design. For the past eight years I have built and maintained websites for small business and individuals.

What this means to you...

You get a domain and website over which you maintain control, hosted on reliable servers. Your website projects a professional image. Most importantly, your website is scalable so it can grow with your business and as technology changes.

You get the benefit of working with a seasoned and experienced professional who understands your business needs.

My PERSONAL guarantee...

You must be absolutely satisfied with all my work or it costs you nothing!

WHY YOU NEED A WEBSITE

A Website...

Gives You Online Presence

Very few people are going to find you if you aren't online.

Costs Next to Nothing

It's never been cheaper to have a website.

Is Cheaper than Printed Advertising

Websites are like brochures that are free to reproduce, interactive, and quickly distributed.

Is Worldwide

Working globally is no more effort than working locally.

Makes You Money

Sales are a click away.

Saves You Time

Customers can see your entire product catalogue without ever talking to you.

**Yes, you
can have your
own website**
